

PUBLIC NOTICE

UNITED STATES ARMY

Volunteer Army Ammunition Plant invites its neighbors, interested individuals, and community groups to comment on its plans to conduct remediation activities at two environmental sites at the former production facility. A [Statement of Basis](#) for each of the two sites, the Construction Debris Disposal Area (CDDA) and the World War II Landfill (WWII LF), has been approved by the restoration team for Volunteer, including the U.S. Environmental Protection Agency (EPA), the Tennessee Department of Environment and Conservation (TDEC), and the Army; and are available for public review.

The purpose of the documents is to present the proposed plan for a removal and disposal remedy for soils containing lead, arsenic, polychlorinated biphenyls, and nitro aromatic explosives compounds at the two environmental sites.

Written or verbal comments or questions on the proposed plans will be welcomed during a 30-day public comment period beginning August 16, 2007 and continuing through September 14, 2007. Comments may be directed to Mr. Scott Bolton, Commander's Representative, Volunteer Army Ammunition Plant, P.O. Box 22607, Chattanooga, Tennessee, 37422, (423) 893-9143. Written comments or questions must be postmarked by September 14, 2007, please.

The [Statements of Basis](#) for the remedies at the CDDA and WWII LF sites and other documents describing the environmental activities at Volunteer Army Ammunition Plant are available for review by the public at the following locations:
